

The graph displays the total loss for ten different agents over a period of 1.6 epochs. The x-axis represents the epoch number, ranging from 0.0 to 1.6. The y-axis represents the loss value, ranging from 0.0 to 1.6. The legend identifies the lines for each agent: Agent 0 (blue), Agent 1 (orange), Agent 2 (green), Agent 3 (red), Agent 4 (purple), Agent 5 (brown), Agent 6 (pink), Agent 7 (grey), Agent 8 (olive), and Agent 9 (cyan). All agents show a general downward trend in loss, with some initial fluctuations. By epoch 1.6, the losses for all agents are relatively stable, clustered between 0.8 and 1.0.
